## B. Housing and Development

The Three Parishes area has seen a relatively large amount of development over the last 5 years, with approximately 44 new homes completed (none of which were in the affordable home category). In addition, planning permission has already been granted, for a further 52 homes including 5 affordable housing.

The Shropshire Local Plan which is under review at the moment defines the three main settlements in Three Parishes as 'Community Cluster'. This means that from 2021 to 2036 there will be limited potential for development. Community Cluster status will allow infill of up to 3 houses plus affordable with the chance of up to 15 if there is a need on the edges of the settlement, though this would be subject to strict scrutiny. The areas between the three main settlements will be classed as 'Open Countryside' and therefore will be subject to the 'no development rules' except where the Rural Exception Policy applies.

This section asks you to think of the community as a whole, not just your household's needs, there is a separate section for that later.
