## Right Home Right Place Launches

As Shropshire Council strives to meet the housing need in the County it requires the best and most up to date information about this. In particular, what type of homes people need and where they need them.

To help with this, Right Home Right Place has been developed.

Right Home Right Place builds on the traditional Housing Needs Surveys of the past to identify housing needs in an

area, but improves on this by making the surveys more accessible and expanding the range of respondents by making it available online and promoting it through social media, events and other marketing.

Right Home Right Place will provide communities that already recognise they have a housing need with up to date information and it will also highlight areas of the County that have previously not shown any need - hidden need.

This information will then feed directly into planning policy and help to determine the type, scale and location of future homes.

Right Home Right Place will also provide news and information about housing schemes and promote events that are coming up.

## How to get involved

Check out the website and take the survey at [www.righthomerightplace.com](http://www.righthomerightplace.com)

Follow us on Social Media! Twitter @RightHomeShrops  
Facebook @righthomerightplace

## Events
